

St Andrew's C of E Infant School

This week we have...

WB: 01.07.24

- Been visited by Pirate Pete! He lost his treasure and we had to help him find it! We went on a treasure hunt and found it in the microwave! We then drew maps for Pirate Pete to tell him where his treasure was! He wrote back to us and left us some yummy treasure treats in the SCHOOL KITCHEN!
- Been learning all about 3D shapes in maths. We now know - cube, cuboid, sphere, cylinder and cone! We have been sorting them, making repeating patterns and printing with them to find out which 2D shapes they are made from.
- Been reading the story called 'The Pirates Next Door'. We have been drawing the characters from the story and then next week we will make our own messages in a bottle! If you have any plastic bottles please send them in so we can use them.
- Continued using our new beebots called 'ERIC'. The children have learned to program them to move forwards, backwards and turn to the side.
- Been learning all about The Sikhism festival of Vaisakhi. We learnt that people who celebrate this festival of Spring, make flags, dress up and have a parade in the streets. Children who went to the Leyland Parade could compare their own experience of a parade.
- Been continuing to learn about road safety. We learnt the Green Cross Code and how important it is to STOP, LOOK, LISTEN!
- Continued to learn traditional pirate songs in music!
